

ALL SECONDARY AND HALF OF THE PRIMARY SCHOOLS IN BRITAIN ARE GOING TO BE REBUILT BY 2020...

What did you tell the architects?
 Student 1: We told them what we heard that people said - and a lot of people said they want bigger classrooms and stuff, and better toilets.
 Student 2: Some ideas were really crazy though, like having Jacuzzis and things like that, and like having a roller coaster going across the top.

Do you think your and your classmates' ideas are up there on the final design?
 Student 3: A little bit but...I think the architects already had their ideas.
 Student 4: I think they were happy to add on though, but I don't think they added on much.
