

WHAT MAKES SHADOWS APPEAR? HOW DO YOU MAKE TOOTHPASTE?

CREST ★ Investigators is the UK-wide award scheme that enables 5 - 12 yr olds to solve scientific problems through practical investigation.

Created in conjunction with Millgate House, a range of specially designed activities focus on thinking about, talking about, and doing science. And with log-books to track progress, badges and certificates to celebrate success, it's a great way to engage kids.

CREST Awards

DO YOUR STUDENTS EVER WONDER?

IF SMELL WORKS AS A MEMORY AID?...OR WHY ANIMATORS USE PLASTICINE?

CREST helps 11-19 yr olds explore their fascination with the world – and adds value to your teaching.

CREST's flexible awards scheme caters for science communication, research and design & make projects. Linking closely to the curriculum while building soft-skills, it gives students a tangible achievement for their curiosity. Now that's a lot of questions answered.
